Construction

Denver Property Restoration Services Inc.

Property damage can cause personal discomfort, lost business and unsafe living or working environments.

Denver Property Restoration provide restorative services while working directly with independent client and insurance companies in rural and urban markets. We also work with Aboriginal communities province-wide.

Management and Staff

Our trusted team is trained to in areas of safety, restoration and insurance industry standards. We will have your insured building back in business in a clean, safe environment, as quickly as possible.

Based on over 20 years of experience in commercial property management, property maintenance and new construction of residential and commercial properties.

Fire

Fire and Smoke –

Fire and smoke damage to property can be very traumatizing.

After the fire is extinguished there may be other possible damage due to soot and smoke damage that could contaminate everything, from the carpets to curtains and furniture to drywall and floors. In the majority of cases there is also water damage that can cause facilitate mould and mildew growth.

Flood

Water and Flood –

When water damage strikes time is crucial.

To keep damages to a minimum, property and its contents must be dried out quickly. Water damage restoration time can be minimal when we facilitate and apply our proven techniques for returning your property to normal with loss limited to just the affected areas.

Mould

Mould and Asbestos –

Proper training, understanding of regulated procedures, attention to detail, and proper equipment are for mould remediation and removing mould and contaminated materials. Improper technique or equipment is likely to stir up mould and send spores airborne. This applies to both mould and asbestos.

Construction

Construction and Renovation –

We are fully licensed construction contractors who have been in the business for more than 20 years. We have developed a trusted reputation for our fast, professional, and detail oriented services.

When you work with Denver Property Restoration Services, our team will be with you through every step of the process—from initial planning to the end of construction.
