

Clean, Healthy, Duct Cleaning with the Rotobrush Cleaning System

The Rotobrush system is complete with a hose and brush that work simultaneously together leaving clean ducts behind. The process begins when the rotating brush works at a pace of 450 rpm to scrub the inside walls niche air ducts. As the debris is loosened, it is then vacuumed up in the nozzle located behind the head of the brush. Any type of duct application can be cleaned using a Rotobrush system — even flex duct.

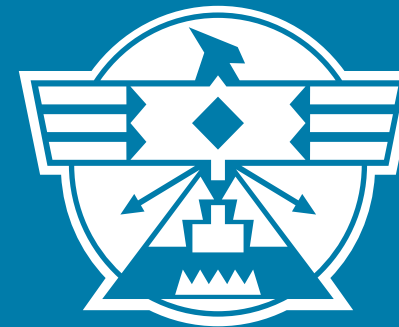

During an **air duct cleaning** service, a specialized technician will use the powerful Rotobrush aiR+ system to collect dirt, dust, and other debris, then sanitize using EPA-registered chemicals. Air duct cleaning could eliminate mould, mildew, and other harmful elements from your air system.

In some cases, controlling home humidity and scrubbing out the vents may be sufficient to end the infestation and prevent further problems. Particularly bad cases may require the use of biocides designed to kill mould and other microorganisms that may be present in the vents.

Service Kits

At DENVER Property Restoration Services, we work with communities faced by the challenges of devastation and loss due to unforeseen circumstances.

When Disaster Strikes, Now You Can Take Action!

At DENVER Property Restoration Services, we offer packages with the materials your community needs to complete the job. Each kit is delivered directly to your community and tailored specifically to tackle the hazards of water, mould and moisture.

DENVER Property Restoration Services specialists are available to ensure all safety standards and procedures are met. If the challenge is too much to handle, we will be onsite in a matter of hours to assist and guide the process.

With a minimum amount of training for select individuals in your community, you can take action! Your community's property can be saved, expenses can be minimized and most importantly, health can be preserved for affected community residents.

DENVER Property and Restoration Services Kit #1

- 2 - Evolution LGR
- 4 - Sahara HD Turbo Dryer
- 1 - Moisture meter
- 1 - Hygrometer
- 1 - Extractor
- 1 - Pump Sprayer
- 1 - 1 Gal benifect & 1 gal Shock wave
- 1 - Box of garbage bags
- 1 - Mop & Pail
- 2 - DENVER Property Restoration Freezer jacket
- 2 - DENVER Restoration Services T-shirts
- 1 - 2 hour session training from DENVER Property Restoration Services specialists

DENVER Property Restoration Services also offer WhiteCap™ Vapor Barrier

Over the years homeowners have benefited from encapsulating their crawl space with a vapor barrier liner. This process protects the area under your home from moisture, bugs, pests, water, foul odor, and virtually all other elements of the natural environment that could enter into the crawl space area.

Our WhiteCap™ vapor barrier liner is available in 20 Mil thicknesses and 12 Mil thicknesses. Improve air quality in your home and ensure the water vapours from the ground stay out of the walls and flooring in your crawl space.

Problem

Crawl space moisture vapors seep into your home from the ground.

Solution

WhiteCap™ stops moisture, mould & bugs from entering your home through the crawl space.

Benefits

- Protects from moisture
- Improved air quality
- Eliminates mould & odors
- Creates usable storage

IICRC

Your community can also sponsor a 3-day course with training from IICRC (Institute of Inspection, Cleaning and Restoration Certification). Proud to be the largest training provider in Canada for IICRC. The IICRC is a certification and standard-setting non-profit organization for the inspection, cleaning and restoration industries.

Certification classes are taught in the following categories depending on course content and requirements.

- Applied Microbial Remediation Technician (AMRT)
- Applied Structural Drying Technician (ASD)
- Building Moisture Thermography (BMT)
- Carpet Cleaning Technician (CCT)
- Carpet Repair and Reinstallation Technician (RRT)
- Ceramic Tile Inspector (CTI)
- Color Repair Technician (CRT)
- Commercial Carpet Maintenance Technician (CCMT)
- Commercial Drying Specialist (CDS)
- Fire and Smoke Restoration Technician (FSRT)
- Floor Care (Hard Surfaces) Technician (FCT)
- Health and Safety Technician (HST)
